

THE ELIJAH CHALLENGE 2.0

A Blueprint for Radical Disciples:
Restoring the Supernatural Authority
and Power of the Early Church

CLASSIFIED: TACTICAL MANUAL - FOR DISCIPLES ONLY

The 2,000-Year Delay

The Mission

"Make disciples of all nations."

33 AD

The Gospel-Resistant Wall

Today

The Current State

- Between 3,000 and 7,000 unreached people groups remain today.

The Bottleneck

Traditional methods (feeding, preaching alone, good works) hit a wall when dealing with gospel-resistant populations (devout Hindus, Muslims, animists).

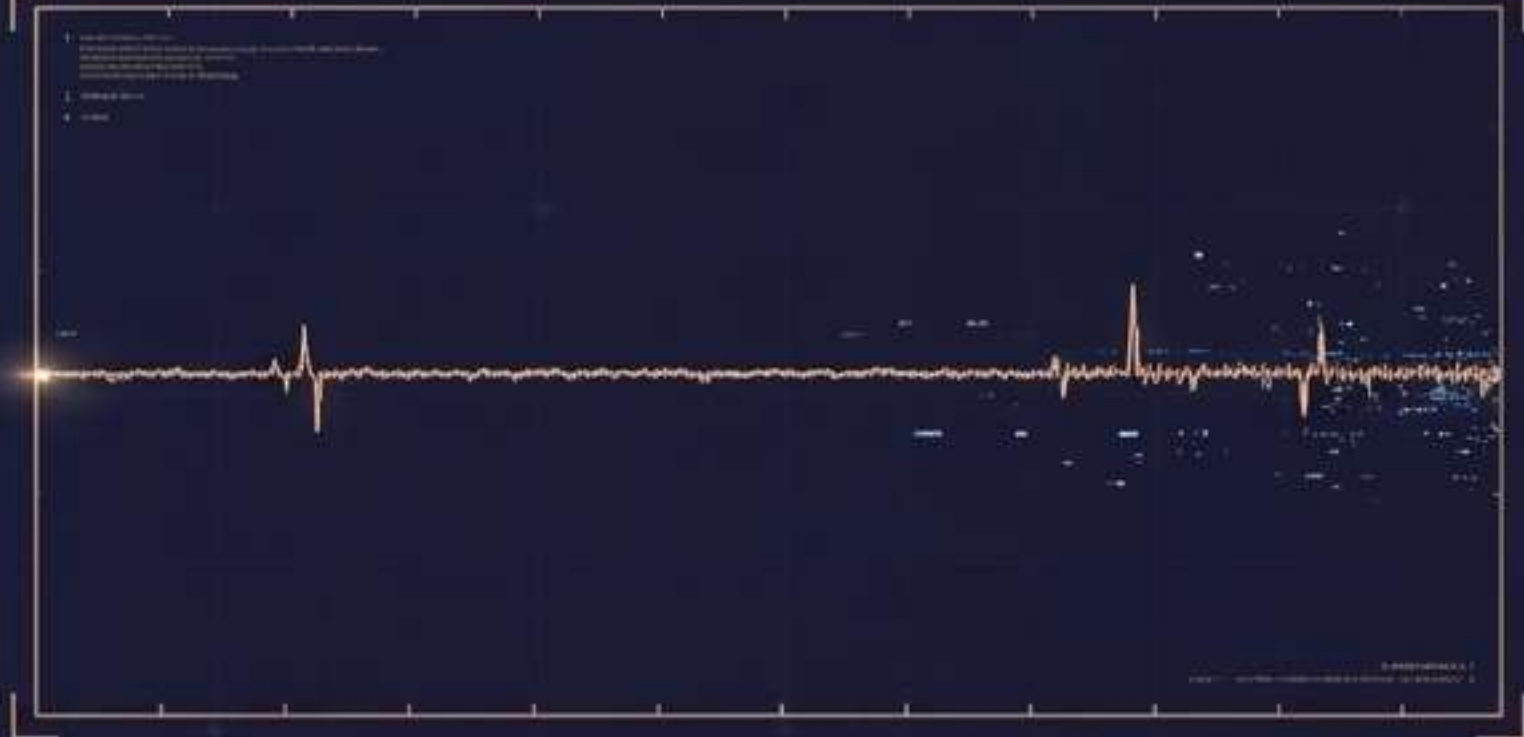

The Conclusion: Preaching without irrefutable evidence is no longer enough to finish the mandate.

The Missing Evidence

“Very truly I tell you, whoever believes in me will do the works I have been doing.”

The Promise (John 14:12)

The Reality: The modern church experiences occasional, unpredictable healing, often leaving the unreached unconvinced.

The Verdict: The miraculous works of Jesus were not just acts of compassion; they were intended as the compelling, irrefutable evidence that He is the Messiah.

The Ultimate Proof of Authority

Mark 2: The Paralytic Encounter

Anatomy of an Excuse

Traditional Church Excuses

The Scenario: The disciples fail to drive the demon of epilepsy out of a boy (Matthew 17).

- It wasn't God's will.
- It wasn't God's timing.
- There was hidden sin in the boy.
- The father lacked faith.

The Master's Verdict

Jesus **rebukes** the disciples, calling them an **'unbelieving and perverse generation.'**

"Because of your little faith."

Jesus fully expected his disciples to perform the miracle.

The Three Offices of the Believer

The Priest

Action: Prayer, praise, thanksgiving, asking God.

Target: Directed UP to God in Heaven.

The Prophet

Action: Declaring, Declaring, proclaiming, affirming ("By His stripes you are healed").

Target: Directed HORIZONTAL toward other believers/people.

The King

Action: Exercising authority, issuing direct orders, commanding obedience.

Target: Directed DOWN over subjects under authority (diseases, demons).

The "Mixture" Mistake

Pipeline 1:
"Father please heal..."
[Priest]

Pipeline 2:
"...I declare healing..."
[Prophet]

Pipeline 3:
"...I command the pain to go..."
[King]

The Traditional Method:

Believers combine prayer to God, prophetic declarations, and commands in a single breath.

The Physics of Failure:

When pleading on your knees (Priestly), you have zero personal authority.

When commanding a mountain (Kingly), you require maximum authority.

Mixing them dilutes power. The mountain does not move.

Diagnostic Matrix: Tradition vs. Truth

Traditional Healing Prayer

Eyes closed

“Father, please heal...”

Asking God and leaving
results to Him

Closing with “Amen”

Hoping for the best

Biblical Healing Commands

Eyes open tracking the target.

“Sickness, go in Jesus’ name.”

Commanding the sickness and
expecting immediate obedience.

No “Amen” (You do not say amen
to a dog when telling it to sit).

Forcing the enemy out.

Weapon 1: Exousia (Authority)

The Kingly Command

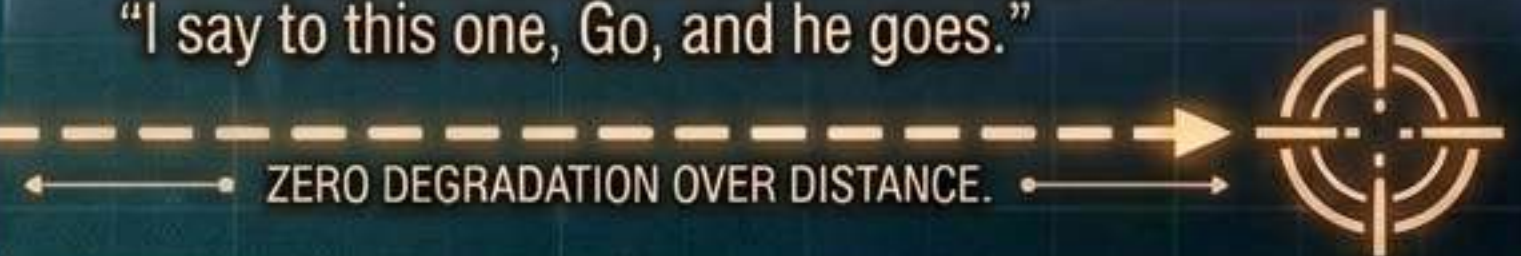

The Physics of Exousia:

Authority is the right to give orders to that which is under your command. It is a 100% pure kingly action.

The Centurion's Secret:

The Centurion understood the chain of command: "I say to this one, Go, and he goes."

Unaffected by Distance or Number:

True authority does not diminish over distance. A general does not need to be in the room for a soldier to obey. You can command a sickness from across a room, over a screen, or across a country.

Application:

Sickness and demons are under the authority granted to disciples. You do not ask them to leave; you evict them.

Weapon 2: Dunamis (Power)

The Physical Transfer

The Physics of Dunamis:

Power is the actual, tangible supernatural force that heals the physical body.

The Mechanism of Transfer:

Power is transferred through direct physical contact—the laying on of hands.

The Contrast:

Authority (spoken command) is used to drive out demons and cast away spiritual oppression without physical touch.

Power (physical touch) is channeled into the physical body to heal damaged tissue, blind eyes, and crippled limbs.

The Perfect Synthesis

Using Both Together: Luke 13 (The Crippled Woman)

The Kingly Command (Authority)

Jesus calls her forward and speaks:
"Woman, you are set free from your
infirmity."
(No prayer, no asking the Father).

The Physical Transfer (Power)

Jesus places his hands on her
back, transferring Dunamis into
her crippled spine.

The Output

Immediately, she
straightened up.

The Protocol: The highest form of biblical healing utilizes both weapons simultaneously. Issue authoritative commands while laying hands directly on the afflicted area.

Authority & Power vs. The Gift of Healing

Clearing the Confusion

Timeline

- ◆ **Authority & Power:** Given pre-Pentecost (Luke 9).
- ◆ **Gift of Healing:** Arrived post-Pentecost (1 Cor 12).

Distribution

- ◆ **Authority:** Given to every radical disciple (John 14:12).
- ◆ **Gift of Healing:** Given only to some believers.

Target Audience

- ◆ **Authority:** An evangelistic weapon used on enemies (sickness/demons in unbelievers).
- ◆ **Gifts:** Meant to edify friends (the Church/fellow believers).

Operational Effort

- ◆ **Authority:** High effort, commands, mountain-moving faith.
- ◆ **Gifts:** Low effort (e.g., Peter's shadow healing the sick).

The Anatomy of Doubt

The “What If” Syndrome

Fear of failure (“What if they aren’t healed? I’ll look foolish.”) breeds doubt.

Diluted Authority

Default to Safety

To protect our ego and God’s reputation, we default to “safe” priestly prayers, leaving results to God’s will.

Zero Impact

The Antidote: The Centurion’s Secret

Mountain-Moving Faith is born entirely of understanding your chain of command.

When you fully understand that the disease is legally bound to obey you, the “what ifs” evaporate. You do not wonder if your dog will sit when you command it; you enforce it.

Preparation vs. Execution

Stage 1 (Priestly Action)

Peter falls on his knees to pray to God. He has zero authority on his knees. No miracle happens.

Stage 2 (Kingly Action)

Peter stands up, turns to the dead body, opens his eyes, and issues the command: "Tabitha, get up!" Max authority. The dead rise.

The Misunderstanding: Tradition teaches we must fast/pray during the encounter.

The Tactical Reality: Prayer and fasting are done before the encounter to build Mountain-Moving Faith, not to do the healing.

The Rule of Perseverance

Healing is a Process, Not a Magic Trick.

The A-Bomb

Pastor Carl's mother was dying of terminal Alzheimer's. He issued continuous commands, rebuking the spirit of death for one full hour until tingling started, then commanded her to walk. She arose and ate.

The 11 Strikes

In Punjab, India, a man deaf and mute since birth was ministered to 11 consecutive times. Only on the 11th authoritative command did his ears open and he began to speak.

The Directive: Press the authority. Force it out. Do not stop at the first sign of resistance. Demons and diseases are enemies that must be forced out.

Scenario A: The Evangelistic Strike

1. Locate the Target

Unbelievers, unreached groups in public spaces (Luke 10:9). Ask, "Do you have any sickness in your body?"

2. Strike (Authority + Power)

Do not pray. Do not ask them to believe in Jesus yet. Lay hands on the affliction and issue authoritative commands to the disease.

3. Persevere

Command, test the body, repeat. Break the mountain down until it moves.

4. Secure the Ground

Once the irrefutable evidence is provided, preach the Gospel: "The Kingdom of God has come near to you." Lead them to repentance.

Scenario B: Ministering to Believers

Target: Born-again believers inside the church (James 5)

The Prerequisite (Accountability)

Unbelievers require zero faith and zero repentance to be healed. Believers are accountable to God. Unforgiveness and bitterness act as toxic blocks to healing.

The Gateway: Believers must confess their sins and forgive one another from the heart before healing commands will work.

The Execution: Praying OVER

EPI (Greek: Superimposition / Upon)

James 5 says to pray **OVER** them, not pray **FOR** them. This means issuing **kingly commands** and **laying hands over** the sick believer once they have repented.

Identifying the Target

Physical Roots

Infirmities caused by the natural world (catching a cold, straining a back, physical wear).

Tactic: Command physical healing. Lay hands. Transfer Dunamis power to restore tissue. No demons need to be cast out.

Demonic Roots

Infirmities caused by spirits of infirmity (e.g., muteness, addiction). Note: Believers can be "demonized" but never "demon-possessed".

Tactic: Attack the spirit with Exousia authority. Command the demon to leave first. Once the spirit is evicted, the physical body will immediately recover.

Addressing the Mountain (Field Rules)

DO

- ✓ Keep your eyes OPEN. Watch the target.
- ✓ Operate in Holy Anger. Treat the sickness as an invading enemy.
- ✓ Issue direct, forceful commands: "Pain, leave! Cancer, go! Body, be restored!"
- ✓ Lay hands directly on the afflicted area (exercising wisdom with opposite sexes).
- ✓ Command the afflicted to test their body immediately.

DO NOT

- ✗ Close your eyes (you are not praying).
- ✗ Ask God if it is His will. (He already gave you the command in Luke 10:9).
- ✗ Say "Amen" at the end of the command.
- ✗ Dilute the strike with prophetic declarations or speaking in tongues.
